Philosophy is the root of all knowledge. It is considered as mother of all sciences. Philosophy has interpreted man and his various activities in a comprehensive manner. It helps to coordinate the various activities of the individuals and the society. It helps us to understand the significance of all human experience. It explores the basic source and aims of life. It asks and tries to answer the deepest questions to life. It clarifies life and the basic values of life. This clarity is very essential because it provides us with the wisdom to face the challenges of life. Wisdom is the supreme instrument in the hands of man in the struggle for his successful existence. The word 'Philosophy' involves two Greek words - Philò meaning love and Sophia meaning knowledge. Thus literally speaking, philosophy means love of wisdom. Man is a rational animal. Desire for knowledge arises from this rational nature of man. Philosophy is an attempt to satisfy this very reasonable desire. Philosophy signifies a natural and necessary urge in human-beings to know themselves and the world in which they live, move and have their being. It is impossible for man to live without a philosophy.
