Letterer-Siwe disease: A study of thirteen cases over a 21-year period

February 1982 · British Journal of Dermatology

E. A. Bingham · J. M. BRIDGES · A. M. T. Kelly · [...] · N. C. NEVIN

In Northern Ireland, with a population of 1.5 million, thirteen cases of Letterer-Siwe disease have been diagnosed over the past 21 years. The average age of onset was 10.5 months. There was a 69% mortality with an average survival time from diagnosis to death of 3.3 months. Four children survived with no morbidity. All deaths were from pulmonary complications, but two cases with pulmonary ... [\[Show full abstract\]](#)

Aluminium Phosphide Poisoning Which Occurring with An Unusual Accident and Resulting in Death Case R...

March 2018 · The Bulletin of Legal Medicine

Halil Boz · Hüseyin Çetin Ketenci · Hülya Karadeniz

Alüminyum fosfit nemle teması halinde fosfin gazı oluşturan yüksek toksisiteye sahip bir insektisittir. Tarım ürünlerinde kalıntı bırakmaması ve difüzyon kapasitesinin çok yüksek olması nedeniyle uygulandığı ortamdaki tüm canlıları farklı gelişim evrelerinde öldürebilmesi nedeniyle sıkça kullanılmaktadır. Halen özgün bir antidotu bulunmayan alüminyum fosfit zehirlenmelerinde ölüm oranları alınan ... [\[Show full abstract\]](#)

Accidental Childhood Deaths

June 1986 · American Journal of Forensic Medicine & Pathology

Arthur R. Copeland

: Accidental deaths in childhood were studied between 1978 and 1982 in Metropolitan Dade County. Cases were collected from both traffic and nontraffic accidental fatalities in which the victim was less than 12 years of age. Cases were then subdivided into traffic and nontraffic groups. Each group was then analyzed as to age, race, sex, cause of death, and scene circumstances. A total of 294 cases ... [\[Show full abstract\]](#)

An Unusual Complex Suicide by Pesticide Ingestion and Stabbing: A Case Report

January 2015

● Youssef Nouma · ● Wiem Ben Amar · Sami B · [...] · Maatoug Samir

Complex suicide is defined as the use of more than one method to induce death. In general complex suicide is classified to planned and unplanned suicide. Unplanned complex suicide occurs where several different methods are used consecutively. In this paper we present an unplanned complex suicide by pesticide ingestion and stabbing occurred to a 53-year-old man. We present the findings of the ... [\[Show full abstract\]](#)

Patent Ductus Arteriosus with Reversal of Flow

January 1955 · New England Journal of Medicine

Alvin J. Gordon · Ephraim Donoso · Leslie A. Kuhn · [...] · Aaron Himmelstein

SHOULD closure of a patent ductus arteriosus with reversal of flow be attempted? If so, how can the high surgical mortality hitherto reported^{1 2 3} be reduced? An attempt is made to answer these questions on the basis of a case of this syndrome in which records were available from the age of ten years to death during operation at the age of twenty-five. Case Report In 1938 a 10-year-old girl came ... [\[Show full abstract\]](#)

Hyponatremic encephalopathy: Case report, literature review and diagnostic-therapeutic approach

January 2001

E. Paganelli

The treatment of severe hyponatremia involves the risk for illness or death due to correction too slow or inadequate against the risk for myelinolysis due to correction too fast. This typical case explains how to treat the hyponatremia on the basis of available clinical literature.

Climatic Variability and Drought in Rajasthan

January 2006

Abhineety Goel · R. B. Singh

In 2002, the Government of India acknowledged severe drought and scarcity in all 32 districts of Rajasthan. It recognized large number of deaths in Baran district as a result of this situation. This paper presents a case study of severe drought in Baran district, as resulting from climatic variability in southeast part of Rajasthan. It further evaluates the post-drought impact on the livelihood ... [\[Show full abstract\]](#)

Combined Method Of Homicide- A Case Report

December 2010

 Basappa Subhas Hugar

It is one of the prime duties of the Forensic Pathologist to decide upon the cause of death in all unnatural deaths including homicidal deaths and it becomes very crucial when more than one method have been employed to kill the victim in homicidal deaths. It is very important to decide whether all the methods used were fatal or one among them is fatal and other methods contributing or hastening ... [\[Show full abstract\]](#)

From TV to Parliament: The Successful Birth and Progressive Death of a Personal Party. The Case of t...

January 2017

Sergiu Gherghina · Sorina Soare

The paper deals with the single case study of Romanian People's Party Dan Diaconescu. Using the concepts of a personal party and a business-firm-party, the authors analyze the emergence, electoral success and decline of this party. Main attention is paid to the personality of the leader as well as to organizational features of the party. Empirical evidence from the PPDD shows that ... [\[Show full abstract\]](#)
