This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

This article has been retracted at the request of the Editor-in-Chief. After its publication, a number of international recognized doctors

and scientists in the field have raised serious concerns in regards to the accuracy or misleading nature of the statements related to the physiology and treatment of high-altitude pulmonary edema (HAPE).

The authors of the article do not approve the retraction and stand by their statements.
